How To Study Poker is the first of its kind: a poker book that teaches you how to work out poker strategies for yourself on and off the felt.

It's intended for No Limit Hold'em players, both LIVE and online, who want to improve their poker game and are willing to put in the time necessary to learn the skills that will propel them through poker's ranks.

If you're tired of passively learning poker from videos, reading books and articles, listening to podcasts and attending webinars, then the 27 Action Steps contained within are just what you've been waiting for. You must set a goal for your poker journey; you need to have a plan to develop the skills that will get you there, and you need to systematically work on building these skills one at a time. This style of purposeful practice is what you've been looking for.
